

# The future of work

## New perspectives in a time of disruption

Economic, societal, and technological disruption are changing the way we live and work.

More than half of respondents expect **big changes** in the way we work over the next five years.

**65%** say employees are demanding better technology.

COVID-19 is super charging digital transformation agendas.

**Only 37%** felt very well prepared to deal with COVID-19.

Top three technologies Financial Services businesses will invest in:

- Cloud
- AI
- Video conferencing

**90%** say preparing for a future crisis is a high priority.

It's time to refocus and harness the power of intelligent automation.

**76%** agree that intelligent automation **increases customer satisfaction.**

**75%** agree that intelligent automation **reduces stress in the workplace.**

**73%** agree that intelligent automation will **save 10+ hours per employee, per week** over the next two years.

What will employees do with the extra time?

- 1 Learn to work alongside intelligent machines
- 2 Do more analysis and critical thinking
- 3 Do more creative activities

IT will empower – **not constrain** employees.

**66%** agree **IT is the driving force** behind using technology to change the way we work.

**80%** think IT should provide platforms and systems that **allow employees to build and implement their own technology solutions.**

This is the future of work.

Data taken from a survey of 597 Financial Services businesses as part of a global study of 3,158 businesses conducted for Pegasystems by Savanta in April 2020.
