Evaluation Methods Used:

Evaluation of the product involved a combination of automated, manual, and functional testing against the applicable success criteria within the Web Content Accessibility Guidelines (WCAG) 2.2 Conformance Level A and AA standards. Testing included third party audit by Level Access based on a representative sample to cover the components and functionality of user flows. Assistive technologies and tools used for testing included JAWS/Chrome, automated scanning tools, native Zoom controls and Developer tools.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
