DB Systel's four success factors for a digital process platform

Pega@Deutsche Bahn

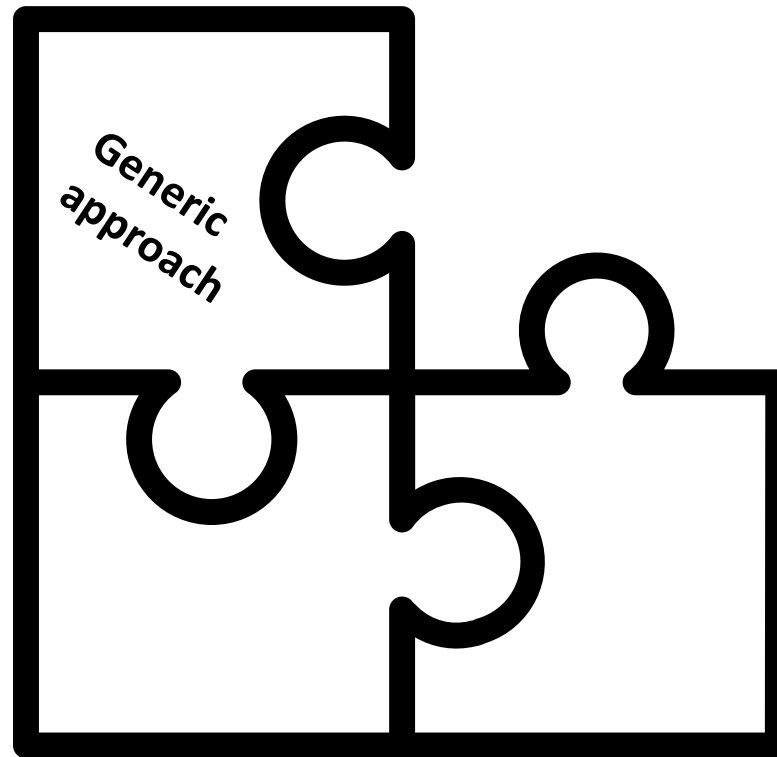

Vier Faktoren für eine erfolgreiche, digitale Prozessplattform

DB Systel | flow.works | 09.11.2023

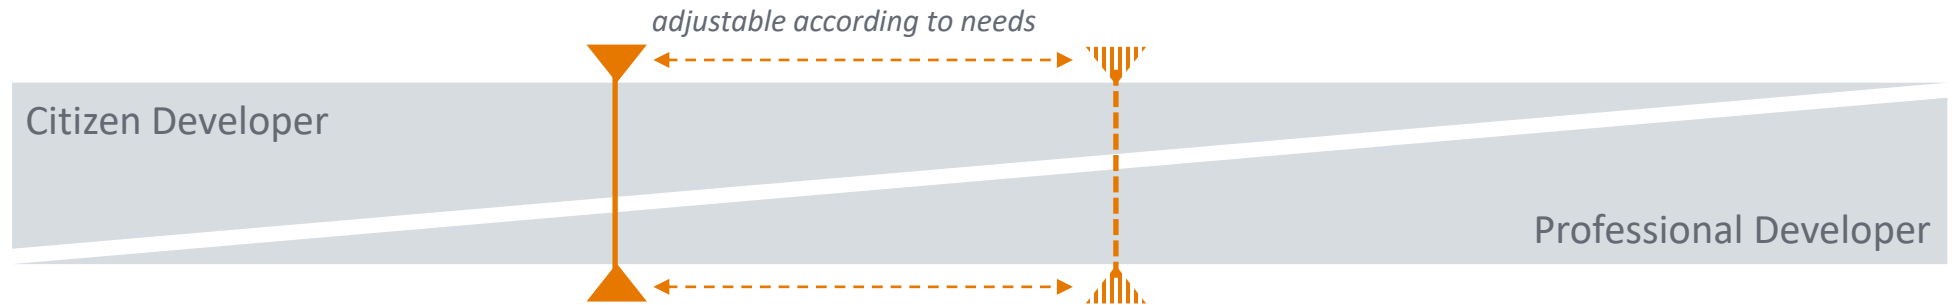

DB Systel
Digital bewegen.
Gemeinsam.

Four important elements to achieve successful results

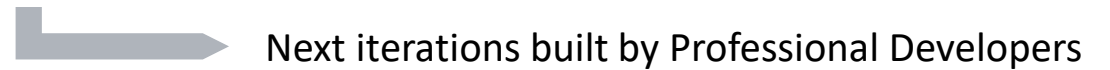

Who? "the slider"

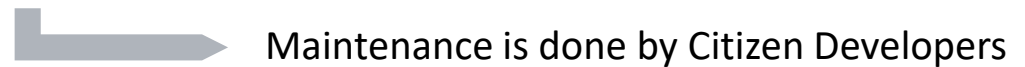

When? lifecycle view

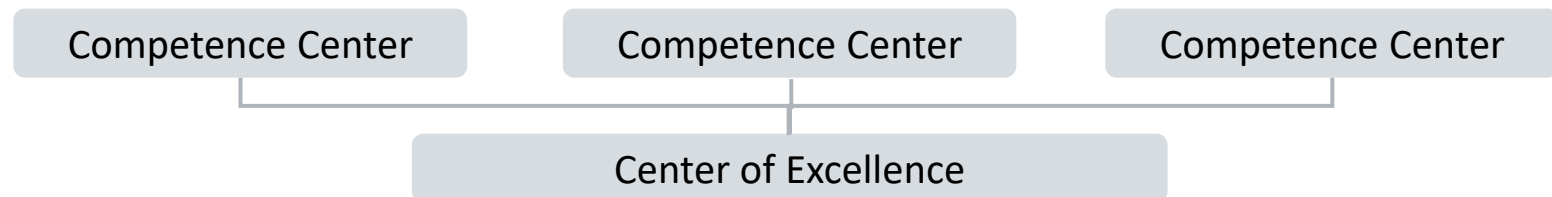

Example 1: 1st iteration built by a Citizen Developer

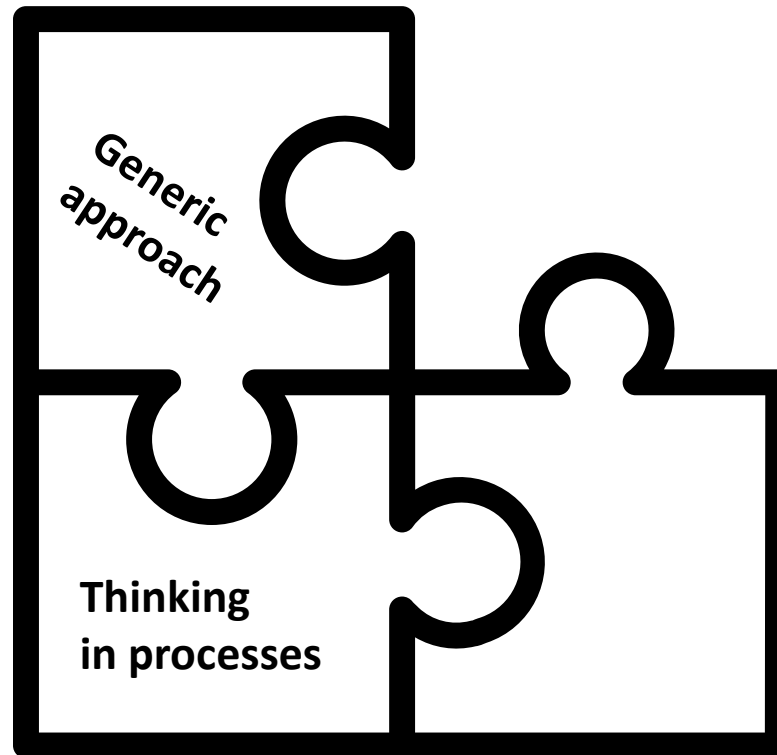

Example 2: Application built by Professional Developers

Support cascading structure

Four important elements to achieve successful results

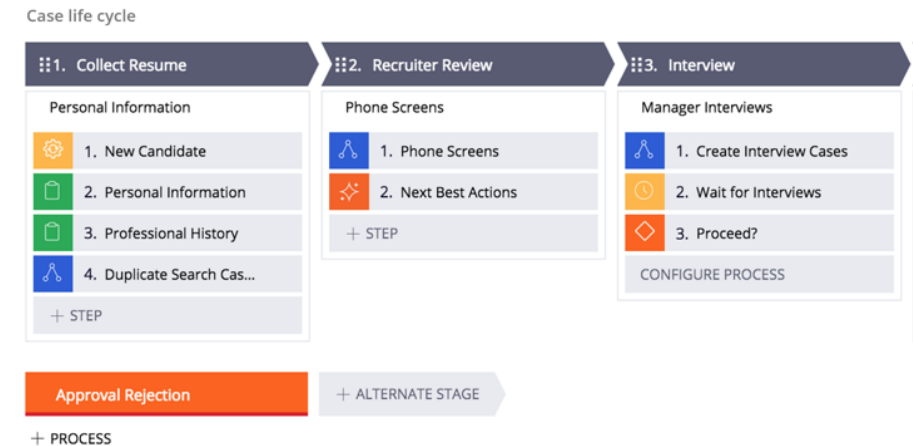

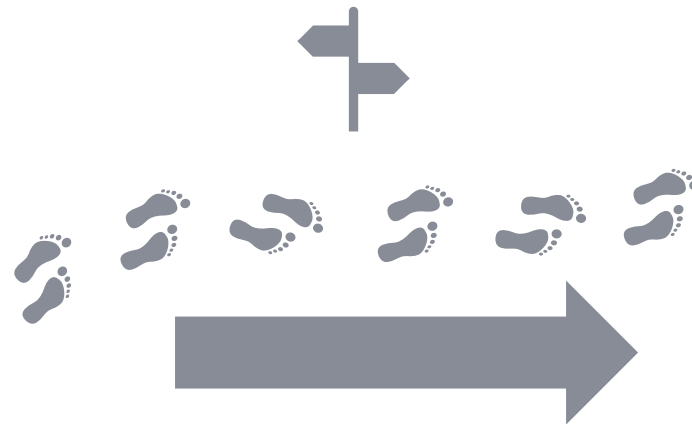

„Thinking in processes“ is the key for successful implementations on the Pega platform

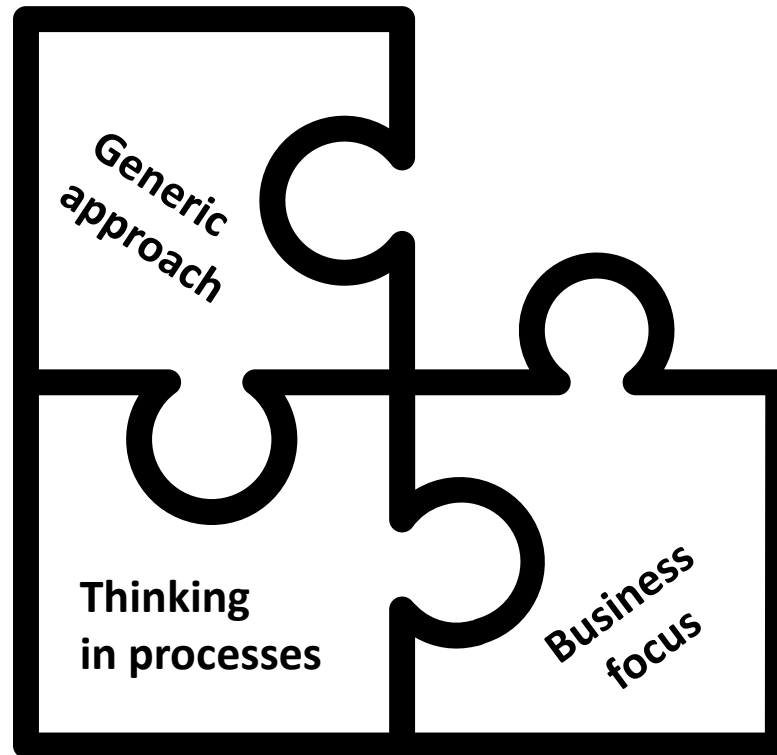

Our 8-step approach

1. Stages
2. Steps
3. Fields
4. Roles
5. Automations
6. Status
7. Reports
8. Screens

Easy to learn and very effective workshop structure.
Mandatory pre-phase of all our projects.

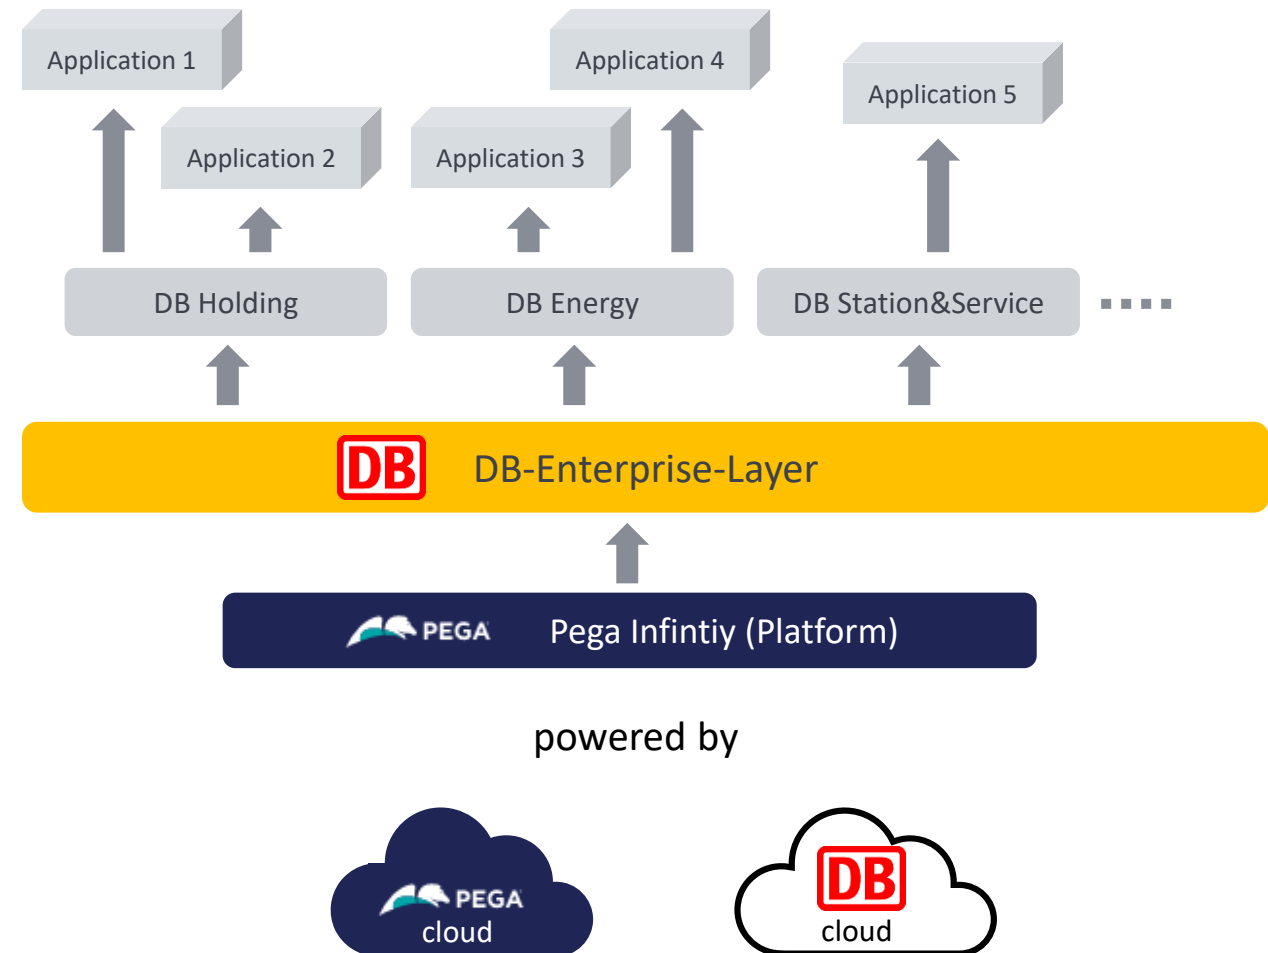

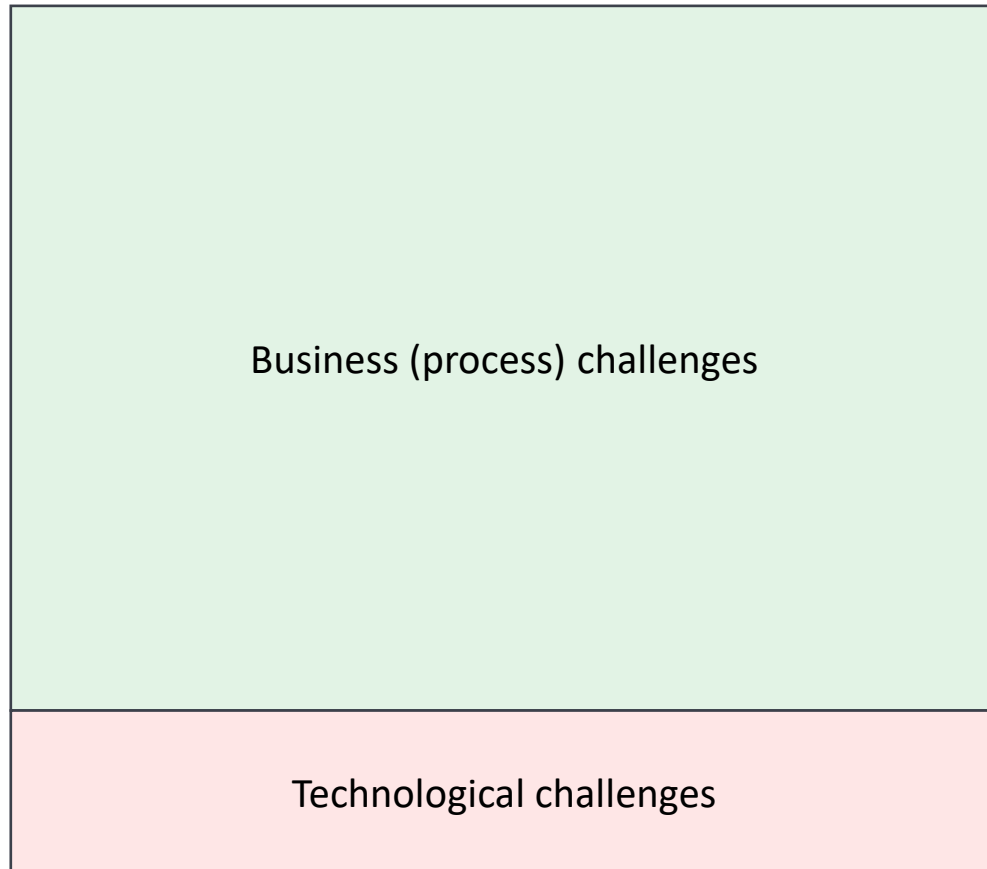

Four important elements to achieve successful results

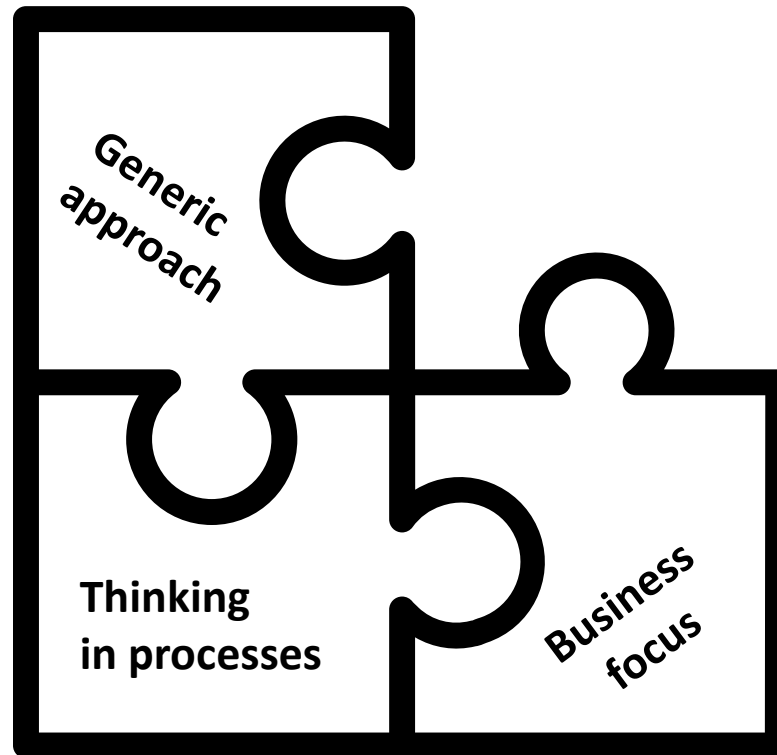

Technology should be easy to be able to concentrate on the business challenges

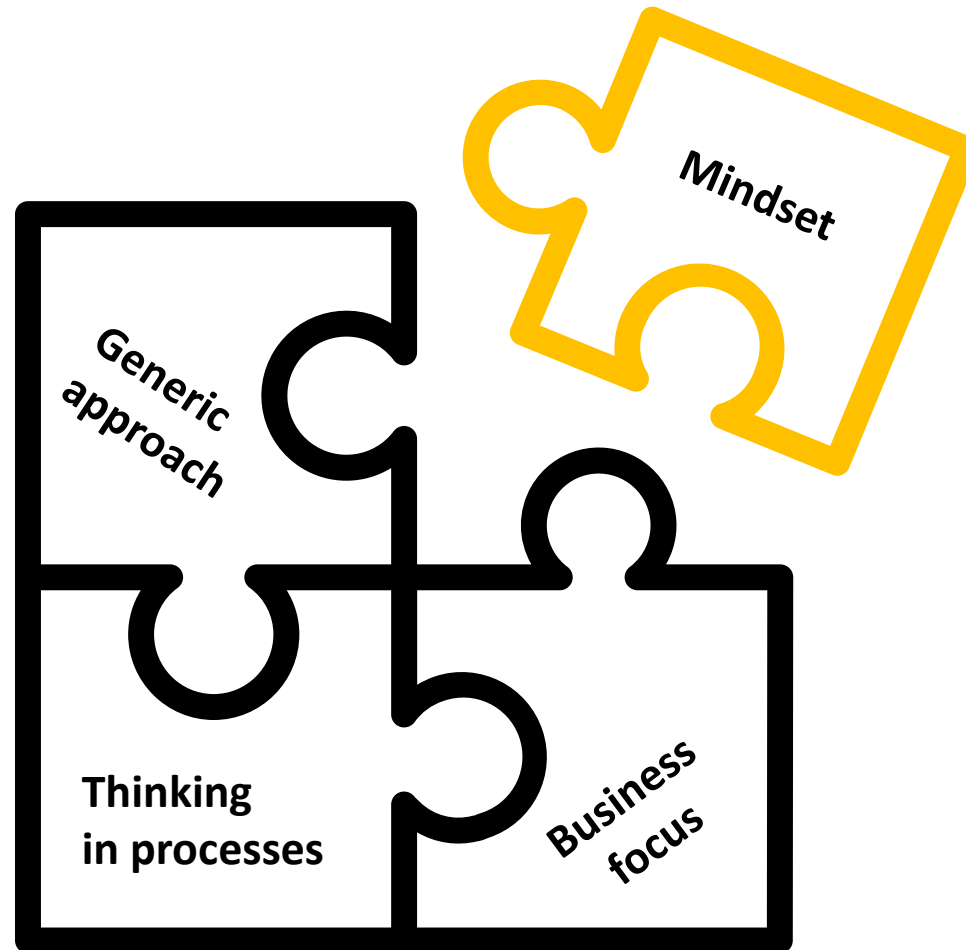

effort ratio

Four important elements to achieve successful results
