Royal Bank of Canada Launches Its Disputes Journey with an MVP in Just 90 Days!

Jonathan Gordon (RBC)
Deepak Tiwari (EY)

About Us

Royal Bank of Canada (RBC) is a global financial institution with a purpose-driven, principles-led approach to delivering leading performance. Our success comes from the 97,000+ employees who leverage their imaginations and insights to bring our vision, values and strategy to life so we can help our clients thrive and communities prosper. As Canada's biggest bank and one of the largest in the world, based on market capitalization, we have a diversified business model with a focus on innovation and providing exceptional experiences to our 17 million clients in Canada, the US and 27 other countries. An accomplished technical leader with a long history in the financial services industry. My role is to lead engineers and architects to design innovative solutions enhancing our clients servicing experience

Jonathan Gordon

Director
Digital Operations
Technology

Online activity has significantly increased after COVID-19 and so have disputes and fraud volumes. Pega Smart Dispute™ (Pega SD) remains the most successful product for accelerated disputes management

Deepak Tiwari

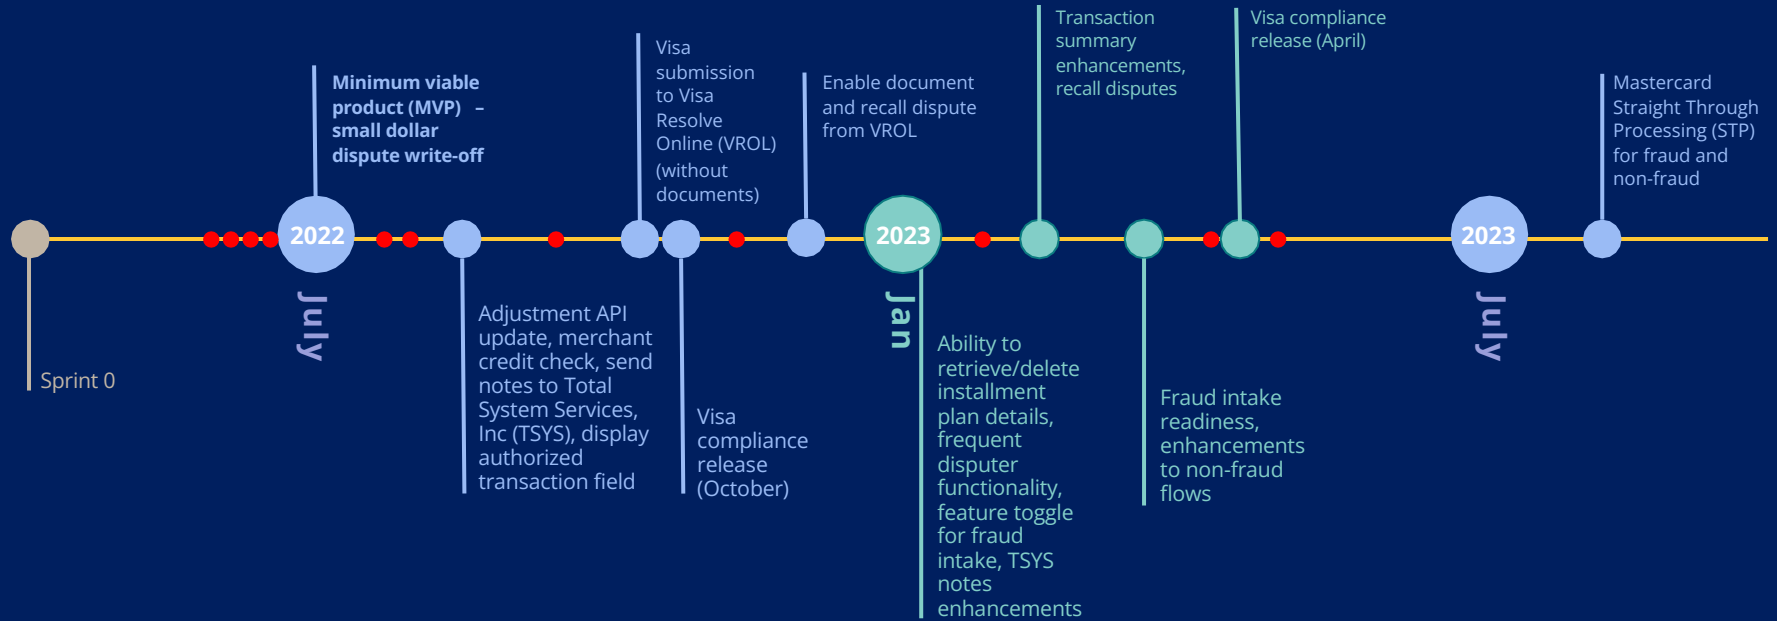

Managing Director
EY Engagement Lead
Pega Smart Dispute

Why Pega SD?

- Modernize disputes applications, tasks & processes
- Engaging, transparent & easy to learn
- Simplify & automate
- Improve client & employee experiences
- Deliver Value early and add additional value over time incrementally

Timeline

Ways of Working

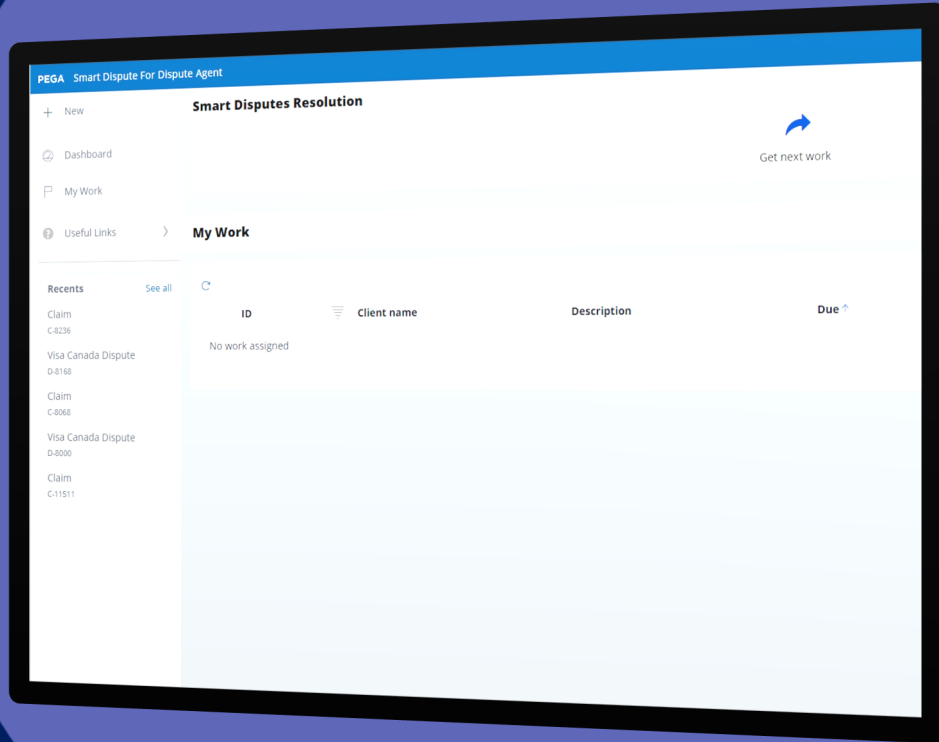

- The Pega SD Team is comprised of talented employees from our lines of business, operations, RBC Technology and EY under a single E2E/F2B operating model
- Together with EY, the RBC Team executes through two multidisciplinary and agile front-to-back squads, highly coordinated under a shared vision and set of Objectives and Key Results (OKRs)
- Developed and executed a Model Office Team to enable more streamlined change management and agent adoption
- Team was empowered to make decisions within squads improving efficiency
- Lessons learned

Technology

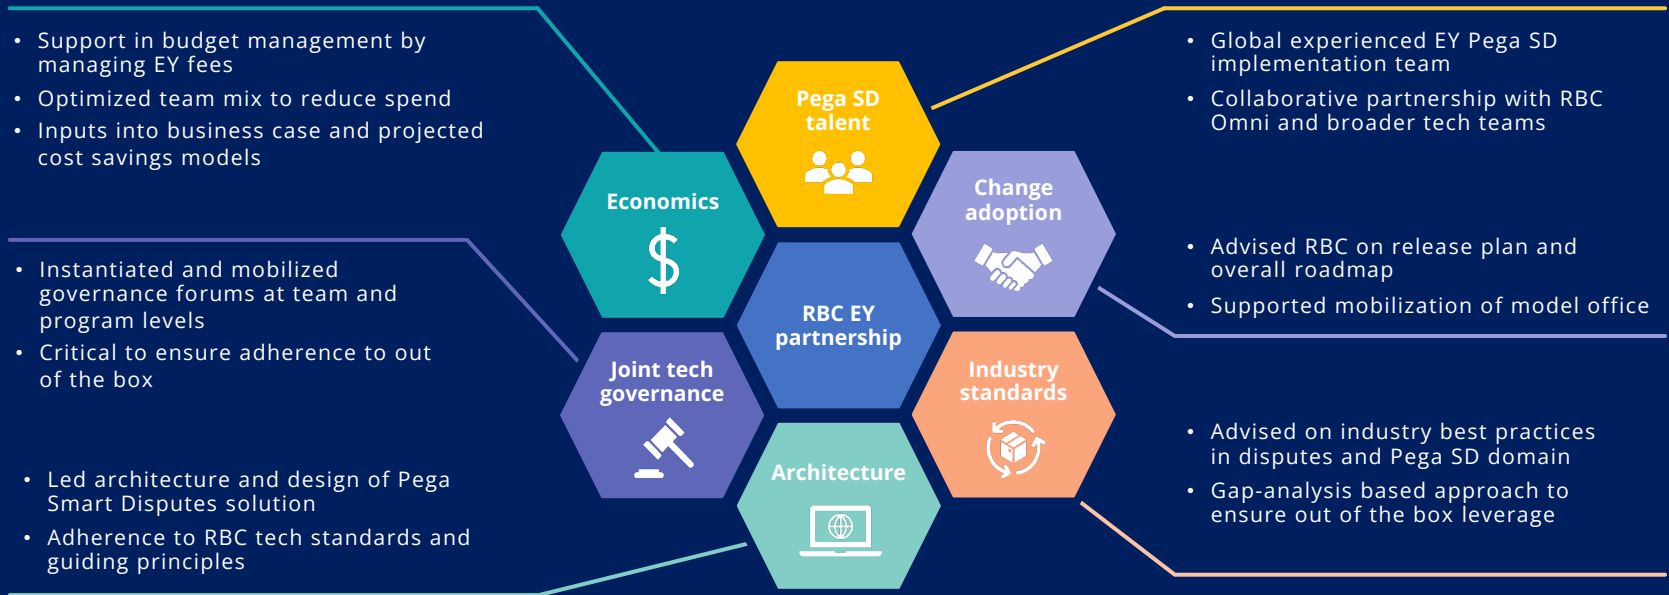

Leveraging Pega SD and innovating development methods to help expedite the path to increased business value

- Buy vs. build: Pega SD and Camunda
- Frequent deployments
- Feature flagging
- Optimized testing strategy
- Dependency management
- Configuration vs. customization
- Lessons learned

Partnership: EY

EY brought in Pega SD talent as well as thought leadership and successful experience from other similar large-scale Pega SD implementations

Disclaimer

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity
