Vibe to Live: 8X Faster Go-lives with Pega

By 2030, CIOs expect that

0% of IT work will be done by **humans without AI,**

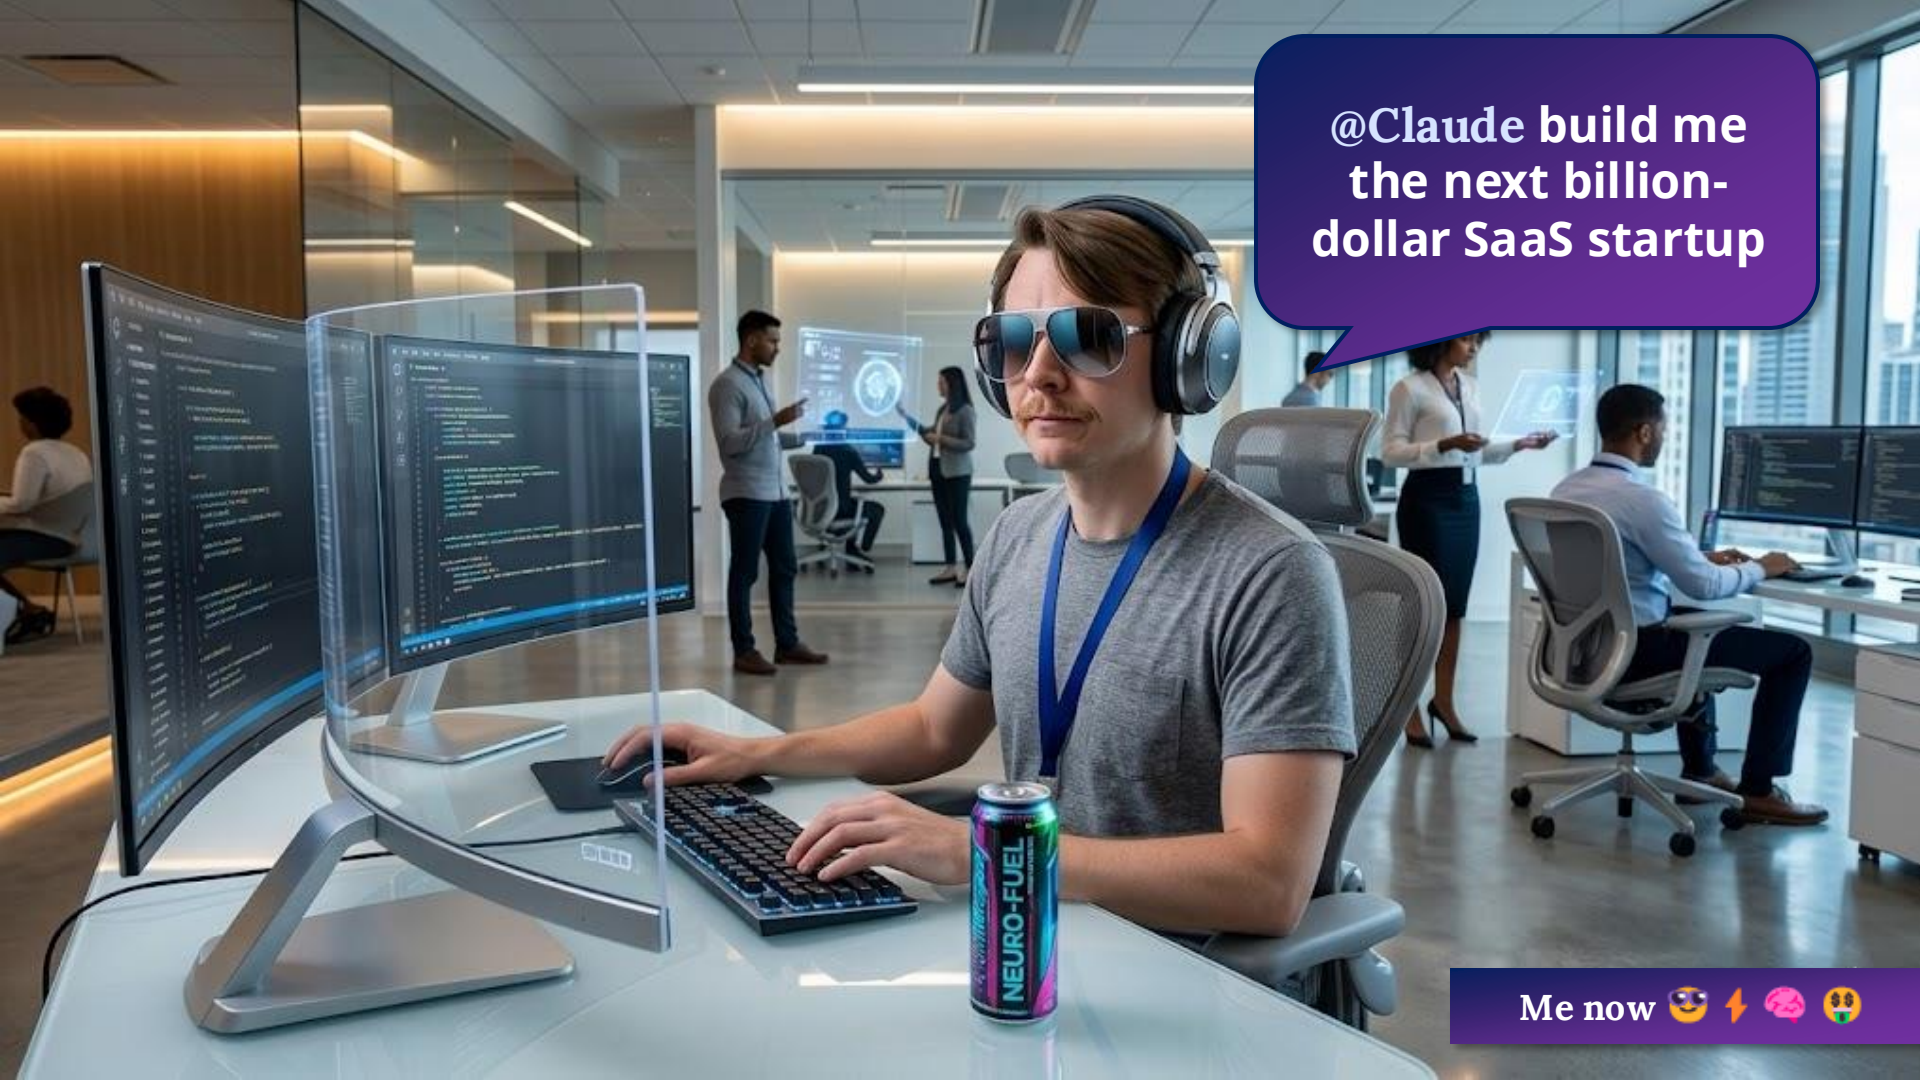

75% will be done by humans **augmented with AI,**

and 25% will be done by AI alone

Matt Healy circa 2016

@Claude build me
the next billion-
dollar SaaS startup

Me now 🤖 ⚡ 🧠 🤑

Lasting transformation calls for more than just building faster

Success with new products, services, automations requires acceleration of the end-to-end software development lifecycle.

Don't just build fast, but...

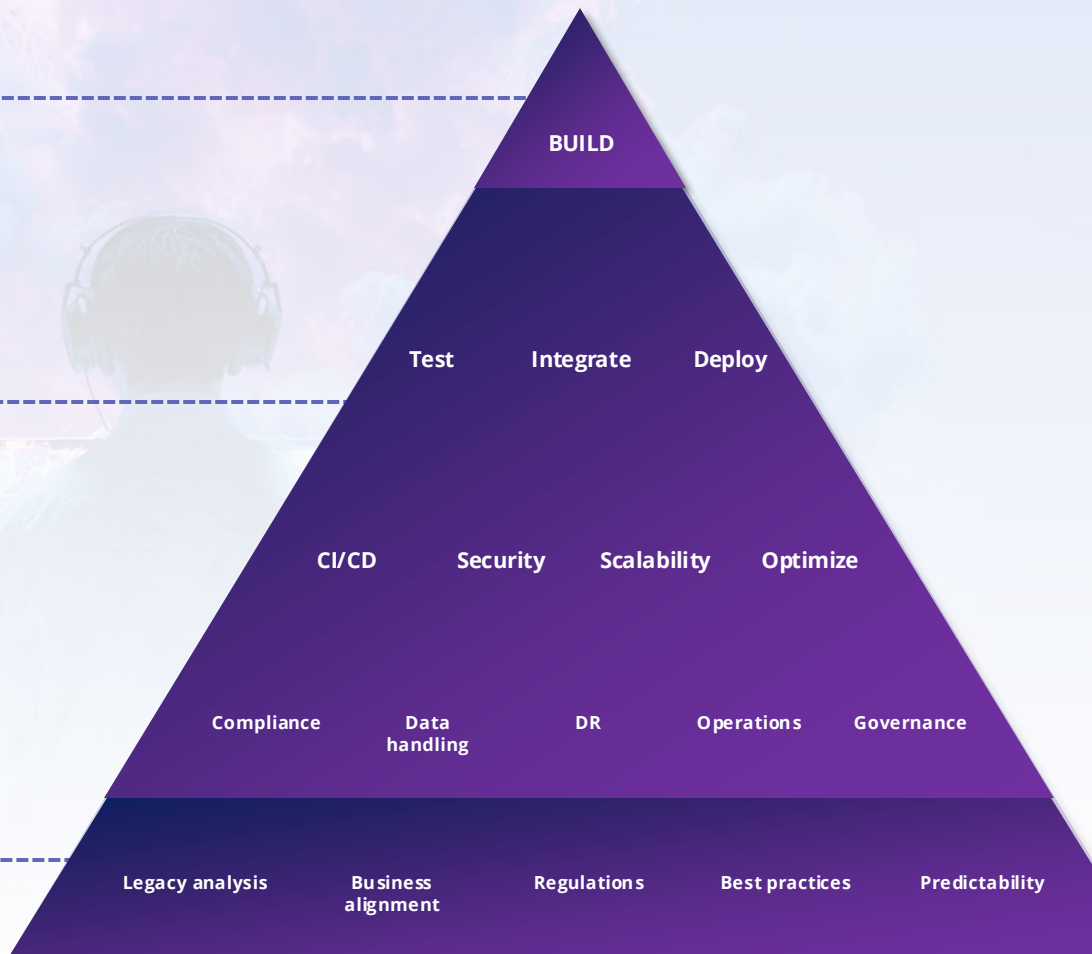

**Build enterprise-grade apps
at AI speed**

Don't just deploy AI code and hope for the best.

**Operate with confidence on
a proven as a Service
foundation with Pega Cloud.**

Code doesn't equal transformation.

**Reimagine how you work,
only with Pega Blueprint**

BUILD ENTERPRISE APPS AT THE SPEED OF AI

INSTANTLY READY TO SCALE TO 1000's OF EMPLOYEE & MILLIONS OF CUSTOMERS

The screenshot displays the Pega Infinity 26.1 AI Assistant interface. On the left, the 'AI ASSISTANT' panel shows a 'Proposed Test Plan' with 'Application Tests (End-to-End Scenarios)' and 'PegaUnit Tests (Rule-Level)'. The 'Application Tests' section includes a table with columns for Case Type, Test, and Description. The 'PegaUnit Tests' section includes a table with columns for Rule, Type, and Case Type. Below the tables are 'Tasks' and a chat input field for 'Write your message'. The main panel shows a 'Compliance Monitoring' dashboard with a process flow diagram (Application Context, Workflows, Data & Integrations, Personas, Implementation Plan) and a 'DEVELOPMENT' section for a blueprint (BP-1234) for 'U+ Bank' in the 'Banking' industry. The dashboard also includes a 'FUNCTIONAL DESCRIPTION' and a footer with navigation links like Alerts, Logs, Tracer, Clipboard, Live UI, Live Data, Accessibility, and Performance.

Reimagine

Build
